

## FRIENDSHIP NEWSLETTER - For Thai Students

These Friendship Newsletters were designed to use as low-key spiritual content at the end of an English lesson. They were originally used in small groups of under 15 students and took 10-15 minutes to go over together. For most of these Newsletters, we followed this format: A student read a paragraph aloud giving the teacher an opportunity to correct pronunciation and explain any vocabulary the student did not understand. Let several students have a chance to read aloud. After reading through the page in this way, we answered the questions together. May God use these short articles to bring blessing to many. -- Arlene Sorenson

### Index of Newsletters by Topics
