

## 14. I am the Gate

Who can remember the story of Noah and the ark? God told Noah to build a big ship and he called it the ark. God designed the ark. He told Noah exactly how to build it. The ark was very big. It had lots of room for many people and animals. The ark had a roof, windows, many decks and one door. God decided to use a big flood to punish the people on the earth because of their sins. For 120 years Noah built the ark and he warned the people to remember God and turn from their sin. God always warns people before he punishes them.

The people did not believe that there would be a flood. When the ark was finished, only Noah and his family went into the ark. Noah also took many kinds of animals with him into the ark to save them from the big flood. The only way to escape from God's punishment was to be inside the ark. The only way to get inside the ark was to go through that one door. God was patient for many years and then He closed that door. The rain came down for 40 days and 40 nights and the earth was covered with water. Everyone who did not go through that door, drowned in the flood.

Today it is the same. People do not believe that God will punish them for their sins. They do not look for a safe place. They do not go in through that one door. Jesus says: "I am the gate; whoever enters through me will be saved."
